Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in August 2008 and no WBCR was observed. A pool was located near site 2 that had greater then 1 meter depth. Footprints were noted around the pool. No interviews were conducted during this survey.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criteria at 1 of 2 sites along the classified segment for WBCR. No interviews were taken in the 2008 UAA study. Since the steam achieved depth and there were footprints present near site #2, the committee recommends that WBCR be retained and SCR be added.

Committee Recommendation:

- ☒ Retain Use
- ☐ Remove Use
- ☐ Modify Use
- ☐ Inconclusive
